Brief Description of Volunteering Opportunities

1. Public awareness and Information

Awareness in communities, schools, religious places, public transport hubs

As a volunteer, you can help to create awareness in communities, schools, religious institutions, public transport hubs, etc. and to develop understanding on COVID-19 pandemic and its implications.

Call center/helpline executive

As a volunteer, you can help by enrolling as a call center/helpline executive for COVID-19, wherein you can assist by answering and guiding through calls and emails. This will help in management and resolutions of queries related to COVID-19, and provide prompt information and services on COVID-19 to people.

Promote social distancing measures in social media

As a volunteer, you can promote the importance of social distancing measures

using various social media channels such as Youtube, Facebook, Twitter, Instagram etc.

Create social media collaterals (small videos, infographics etc.)

As a volunteer, you can help in creating social media collaterals through small videos, infographics on COVID-19. For example, creating a video messages/infographic on the importance of hygiene practices on COVID-19, importance of wearing masks, maintaining proper social distancing.

Public awareness on hygiene practices

As a volunteer, you can help to create public awareness on laid down hygiene practices. For example, emphasizing steps for proper hand washing, pasting of signs/posters or any educational information in public places to encourage hygiene awareness.

2. On-field support

Relief distribution

As a volunteer, you can help in relief distribution of essential items during COVID-19 pandemic. For example, providing assistance in distribution of essential commodities such as prescribed food packages (rice/wheat, dal and others) or cooked packet food for the needy such as migrant workers, daily workers, homeless persons and others etc.

Home delivery

As a volunteer, you can help in assisting home delivery services by delivering foods and other necessity items to those people who are especially sick and old age people. For example, delivering essential grocery items, vegetables, fruits, medicines etc. would be home delivered to people by volunteers.

Logistic support

As a volunteer, you can help in providing logistic support by organizing transportation activities, including storage of goods, managing safe and timely pickup and delivery of goods, arranging services as necessary, addressing and resolving goods and supply issues in the area of your operation.

3. Essential services

Assisting district administration in quarantine, home isolation and law & order arrangements

As a volunteer, you can help in assisting district administration in quarantine, home isolation and law & order arrangements in your area of operations. For example, you can make the administration aware of any needy person requiring food or medical services.

As a volunteer, you can help by assisting the municipal corporation or local government bodies in disinfection and cleaning of areas termed as hotspots in a particular locality.

Door to door information and service management

As a volunteer, you can help in providing door to door information to general public and can also provide basic services like free home deliveries of essential commodities by establishing a supply chain network with the local ration vendors.

4. Health

Assisting Primary Health Care workers

As a volunteer, you can help in assisting Primary Health Care workers in data collection and awareness drives in your area of operations. You can also assist them in delivering healthcare services.

Dead body management/Hearse Services

As a volunteer, you can assist in managing and disposing of the remains of any human who has lost their life due to COVID-19 pandemic under the guidance of experts.

Helping elderly and those in need

As a volunteer, you can help in assisting the elderly and those in need by providing handholding support to elderly aged people and those in need. For example, help in buying necessity items such as medicine, food and grocery items.

Infection prevention and control

As a volunteer, you can assist in Infection Prevention & Control by working with staff, physicians and volunteers to help prevent the spread of COVID-19 and ensure safety of all patients and visitors.

Paramedic Services

As a volunteer, you can assist in paramedic services by working alongside paramedics in responding to emergency calls for medical help outside of a hospital. We would give you training, equipment and support, and you could start saving lives. Paramedics mainly work as part of the emergency medical services (EMS), most often in ambulances.

Transportation of patients

As a volunteer, you can help in transportation of patients. For example, as a driver you can help in driving the ambulance in emergency to nearby hospitals or quarantine centers.

5. Relief camp management

As a volunteer, you can ensure all relief material are followed and aligned with Sphere standards. Also, manage inflow and outflow of relief materials by maintaining proper details of inventory. Coordinate with the field coordinator for ensuring proper distribution.
